Solutions.**

2009 PRODUCT GUIDE

BAZOOKA MOVES WITH YOU

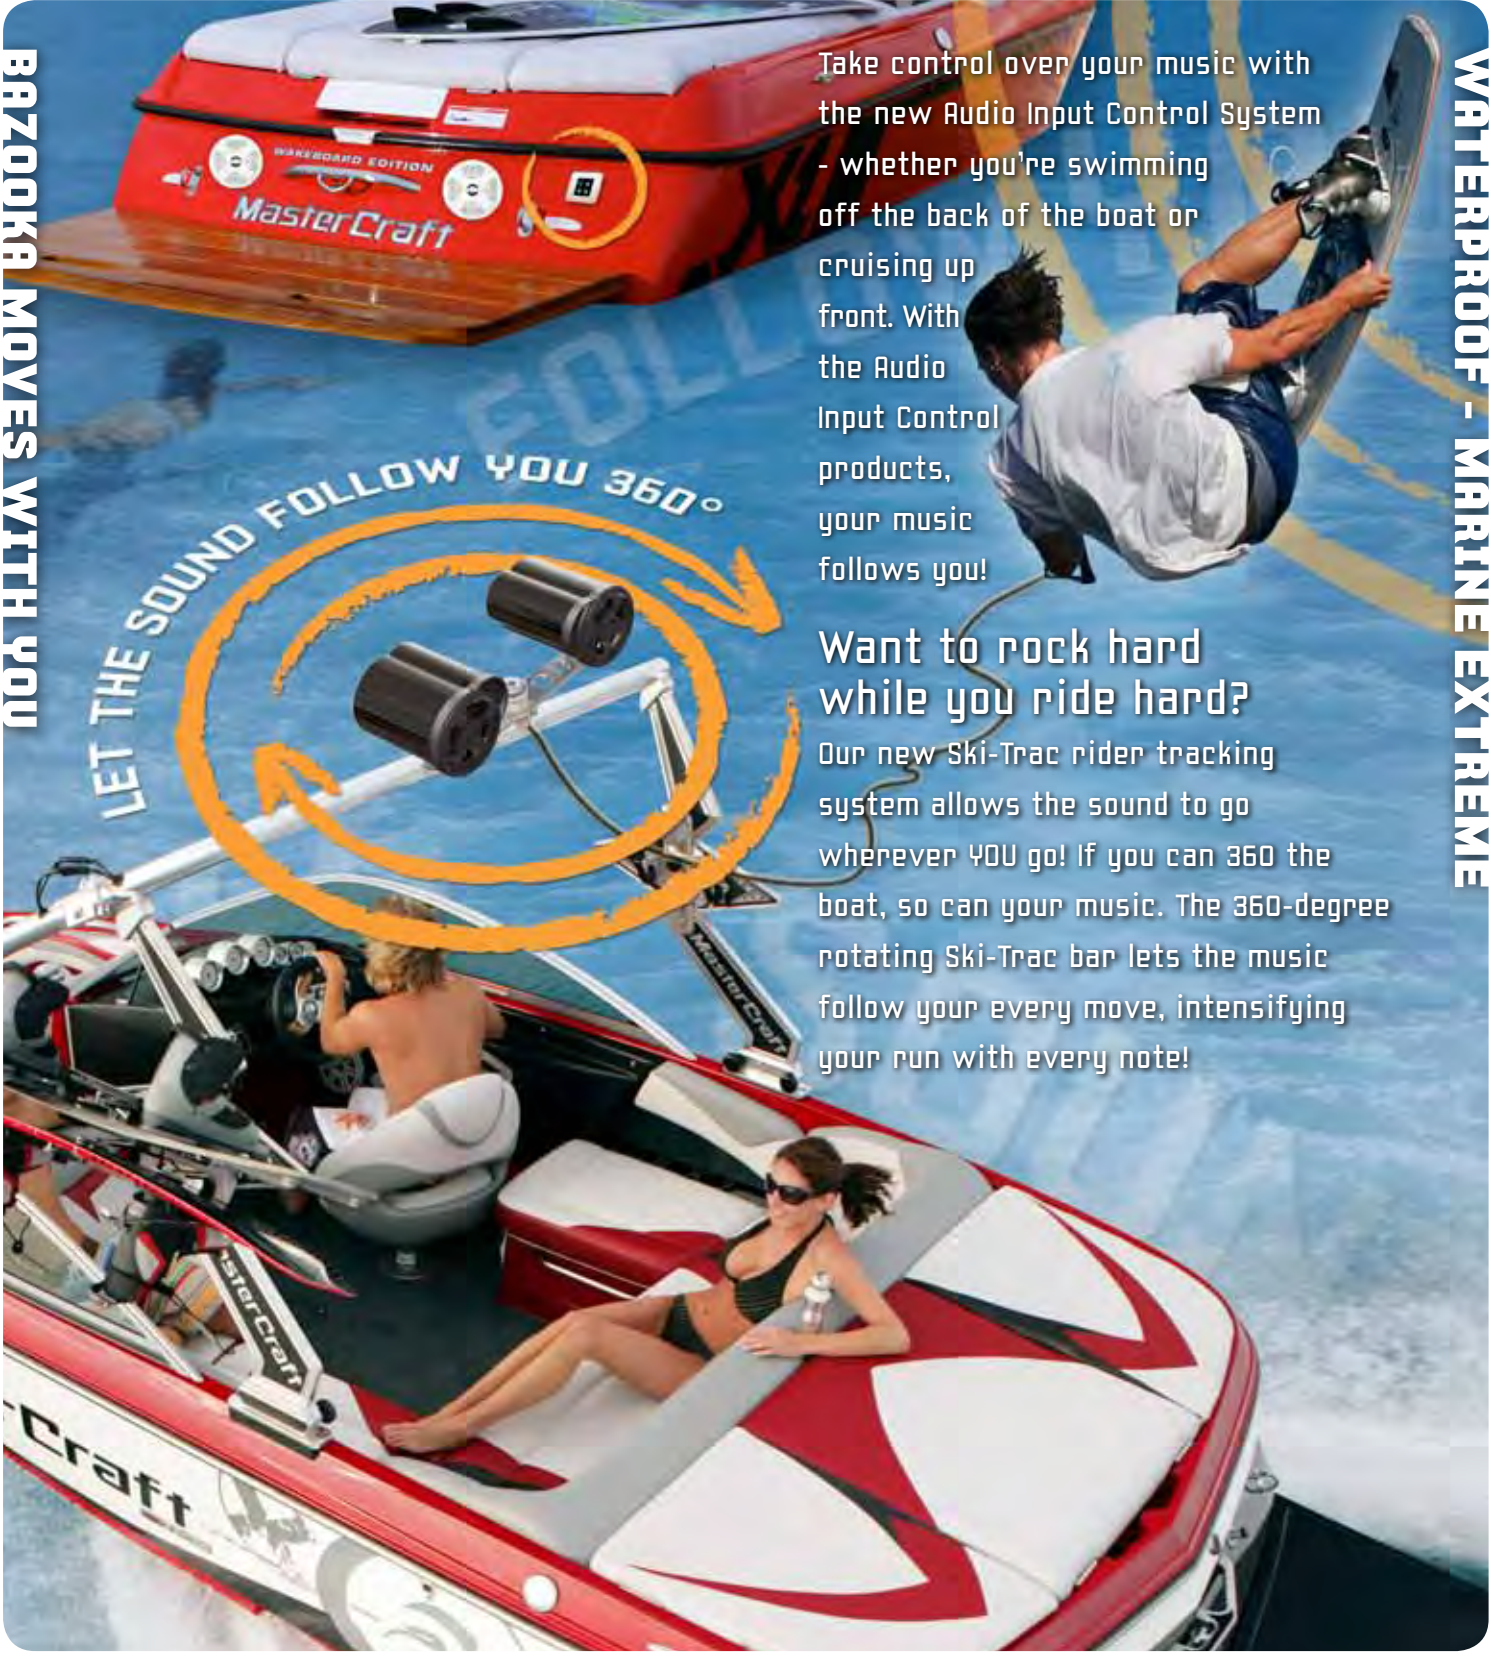

WATERPROOF - MARINE EXTREME

Take control over your music with the new Audio Input Control System - whether you're swimming off the back of the boat or cruising up front. With the Audio Input Control products, your music follows you!

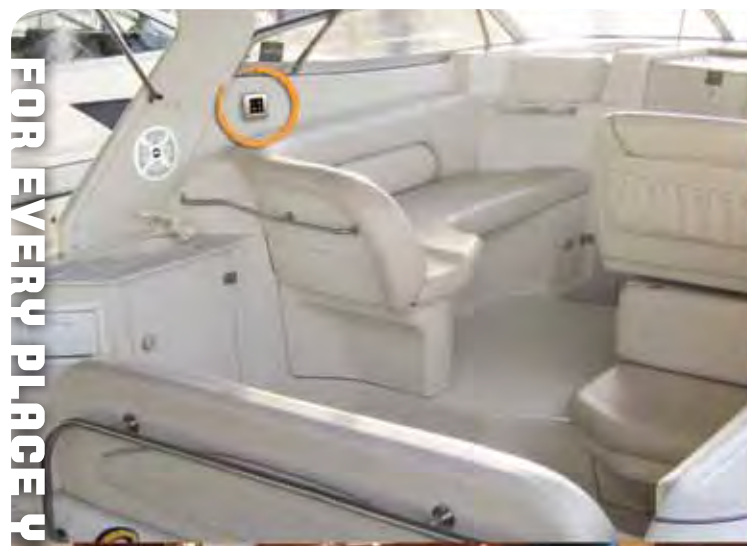

Want to rock hard while you ride hard?

Our new Ski-Trac rider tracking system allows the sound to go wherever YOU go! If you can 360 the boat, so can your music. The 360-degree rotating Ski-Trac bar lets the music follow your every move, intensifying your run with every note!

LET THE SOUND FOLLOW YOU 360°

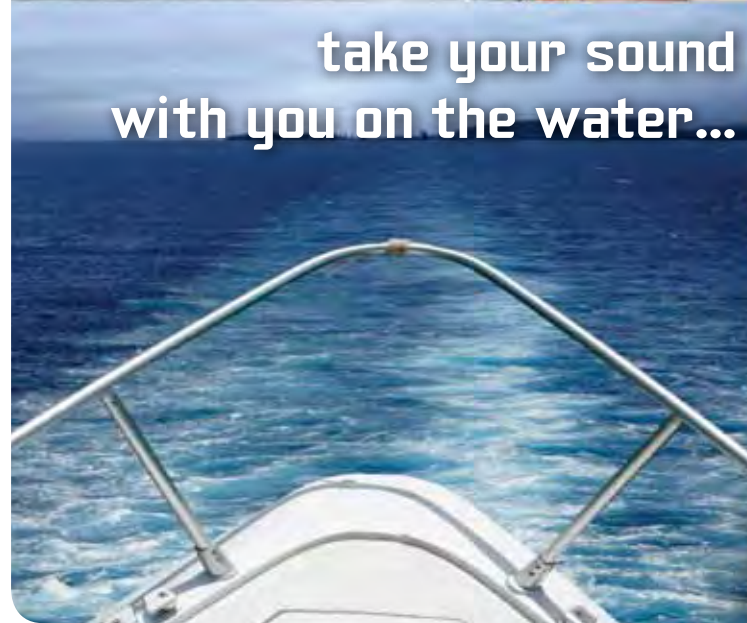

FOR EVERY PLACE YOU WANT TO BE

INDOOR LUXURY

take your sound
with you on the water...

or on the road

Our Audio Input Control product connects all of your audio sources to a central control switch, allowing you to control your music from room - to - room. Available with 3.5 mini jack auxiliary MP3 input in every room, Bazoooka's® Audio Input Control System, lets your music follow you wherever you go.

NOT JUST FOR BOATS!

Our Quick Release Adaptor, Universal Clamps and Tripod Kits provide great sound even in the Great Outdoors. The Universal Clamps fit securely onto the rollbars of any ATV / UTV.

let the sound follow you
EVERYWHERE...

After you've set up camp, just Quick Disconnect your Camo Tubbies, mount them onto the Tripods, and enjoy rockin' in the great outdoors.

The Quick Release Adaptor is a quick and easy way to bring your music with you wherever you go.

OUTDOORS FOR ANY SEASON

Sound-BREAKING solutions... on the cutting edge of YOUR audio experience.

At Bazooka®, we believe that you shouldn't just hear your music, you should *experience* it! That is why we have created a line of products that you can use in your home, boat, RV or campsite. As an audio solutions company, Bazooka® designs products that will fit your lifestyle and let you experience superior quality sound, wherever you are.

SKI-TRAC

Rock hard while you ride hard. The new Ski-Trac Rider Tracking System delivers functionality and control over your sound by allowing the sound to track wherever you ride! No more lousy off-axis sound while you're doing tricks. If you catch a wave and cut right, the Ski-Trac bar will follow. Hit the wake and jump left? The Ski-Trac follows. 360 the boat? The Ski-Trac can do that, too, intensifying your run with every note.

MT-ST-TB2
(patent pending)

MT-ST-TM2
MT-ST-TM2.5
MT-ST-TM3

The Ski-Trac system comes preassembled featuring a stainless steel Track Bar with standard and oversized rope guides, nylon bushings to ensure smooth rider tracking, built-in wire swivel to prevent twisting, and tower mounts (sold separately) to fit most tower sizes. Stainless steel tower mounts available for 2", 2.5" and 3" diameter towers.

Audio Input Control System

MA-RIC-AMK

AMPLIFIER KIT

Our new Amplifier Kit includes a 2 channel, 100 watt amplifier and waterproof remote control. This kit works with any existing audio system, and can be connected high or low level. Using the waterproof remote, you can easily turn the speakers connected to the amp on/off, as well as raise and lower the volume to speakers that are independent of your existing audio system.

TOWER KIT

Our Tower Kit includes a waterproof remote and an Audio Input Control Switch, giving you the freedom to pick any aftermarket amplifier you want to use and still control it! This kit allows you to have up to 3 Audio Inputs to the amplifier (including an MP3 mini jack input), remotely turn on / off the amplifier, remotely select the audio input you want to hear and remotely control the volume.

MA-RIC-TWK

TRANSOM KIT

MA-RIC-TRK

Enjoy the music even when you're enjoying the water! Our Transom Kit includes 2 speakers, an amplifier and a waterproof remote. The waterproof remote lets you decide when and how loud you want to hear your music - when you're

swimming off the back of the boat you don't have to blast the others inside the boat. With our Transom Kit, your music follows you!

INTERIOR KIT

With an Audio Input Control Switch, amplifier and interior remote, our Interior Kit connects all of your audio sources to one central control switch, allowing you to control

MA-RIC-INTK

your music from room - to - room. Listen to your favorite MP3 playlist while basking in the sun on the front of your boat; keep track of the ballgame on TV while making dinner in the kitchen; or just enjoy peace in quiet in the bedroom. With Bazooka's® Interior Kit, your music follows you wherever you go.

CAMO SERIES OF SPEAKERS

Our Camo Series of speakers offer all the advantages of our other Marine grade speakers. Available in a sleek camouflage pattern, these speakers will blend in with your hunting vehicle.

MAC6502C/MAC8002C (shown)

MT6502C/MT8002C (shown)

COMPRESSION HORN TUBBIE SPEAKERS

Our new Compression Horn Tubbie speakers are available in both 6" and 8" versions and feature compression horn technology that projects the sound across the water. At 3 times louder than our standard Tubbies, these compression horn Tubbies make the hardcore boarder's ride more intense.

MPR1000B

PA MICROPHONE SYSTEM

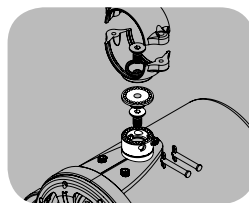

Our PA Microphone System has a Pre-Amp module which interfaces with your boat's existing audio system and allows you to add both voice and MP3 playback to your system. Communicate with the skier riding along with you, or blast some tunes to enhance their riding experience! With the PA microphone, you can talk to your passengers, riders or even friends back on the dock.

DELUXE NEOPRENE TUBBIE COVERS

Whether driving down the road, or simply storing your boat, these NEW Deluxe neoprene Tubbie covers are custom designed to easily zip on and protect your speakers. The MT-CVR6B fits all 6" Bazooka® Tubbie speakers and the MT-CVR8B fits all 8" Bazooka® Tubbie speakers. Each package comes with 2 covers.

MT-CVR6B/MT-CVR8B (shown)

QUICK RELEASE ADAPTORS

MT-QRA-SS

Just pull the pin and go! Our new Quick Release Adaptors allow you to securely mount your Tubbies to any of our mounting clamps, swivel them into any position, lock them and enjoy clear, quality sound. Then just pull the pin to release

the speaker. With our new Quick Release Adaptors, your music can follow you anywhere, quickly and conveniently! (Compatible with all Tubbie clamps and mounting systems).

TRIPOD KIT

As an accessory for all our Tubbie speakers, our Quick Release Tripod Kit includes two Quick Release Adaptors, two tripods, two 30' pieces of speaker wire, and a rugged deluxe carry bag with foam inserts to protect your Tubbies.

MT-QRK

SINGLE ENDED TUBBITES

These original Tubbies offer unprecedented performance and value featuring our true Marine grade speakers, composite baskets, 12dB crossovers, and stainless steel mounting hardware. Because these Tubbies use the same quality of speaker as our regular Marine speakers, they are "voice matched" to deliver the same clarity of sound when installed together. This lets the rider enjoy the same sound quality as everyone else in the boat while at the same time complimenting the sound for those just along for the ride.

MT6502BS

MT6502WS

MT8002BS

MT8002WS

Rock the water with our NEW double ended Tubbie speakers. This new design has TWO speakers in each Tubbie, one for the rider, and one for the bow riders. Whether coming or going, everyone will hear your sound!

MT6552BS

MT6552WS

MT8252BS

MT8252WS

Our Tubbie Mounts and Adaptors work with ALL models of Tubbies and will let your music follow you anywhere.

DOUBLE ENDED TUBBITES

Bazooka® Marine Component Subwoofers can create waves on their own! These high performance marine grade woofers are available in 8" and 10" sizes and are ready to "Rock the Boat" with features like UV treated poly woofer cones, rubber surrounds, Progressive flat spider, Kapton VC former, powder coated back plate with side venting, nickel plated connectors, and a monster motor structure with a bumped backplate and rear venting.

MAW8004/MAW1004 (shown)

Bazooka® Marine Amplifiers offer flexibility not common to Marine customers. Featuring stainless steel cover plates, aqua illuminated badges, gold plated terminals, conformal coded circuit boards and aluminum chassis, these amplifiers are designed to weather the harsh marine environment. And with an infinitely configurable 4-channel amplifier and a 2ohm stable 500-watt subwoofer amplifier, these amps will help make waves from the marina to the ocean.

MAR465/MAR1500

The Marine Satellites are available in 6", 8", and 6"x9" sizes and will work with all marine audio systems. These satellites feature UV resistant grills, composite speaker baskets, butyl rubber surrounds, polyurethane woofer cones, and aluminum dome tweeters with 12db per octave crossovers.

Bazooka® is setting new standards with the industry's first true marine speaker designed outside of the traditional "it's gotta be white to be marine" mentality. The black and cosmetic aluminum marine satellite speakers offer all of the water resistant features and build quality of their traditional white siblings with a hot cosmetic for use on today's outrageous ski and offshore powerboats.

MAC6502W/MAC6502B

MAC8002W/MAC8002B

MAC6903W

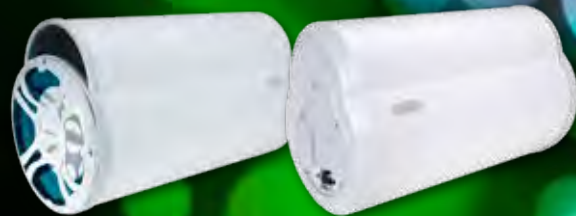

The Bazooka® Marine Bass Tubes bring the superior performance of Bazooka® products to the water. The Bazooka® Marine Bass Tubes subwoofers are equipped with critical features that enhance their performance and reliability in the harsh marine environment. These subwoofers are waterproof, and feature plated speaker terminals, stainless steel hardware, UV resistant enclosure and a nylon composite mounting system for the tubes.
