

RT34.1

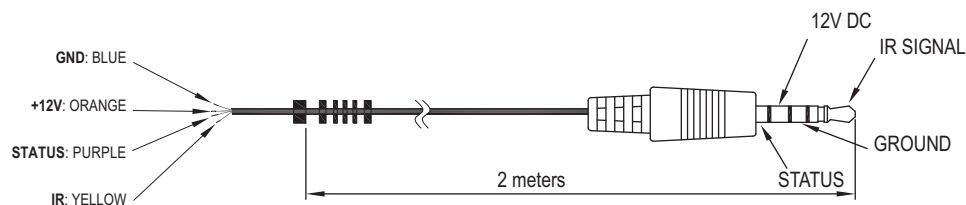

Cabinet/Table Top IR Receiver With Talk Back
and Status LED's; PDP/LCD Friendly and CFL Proof

VISTA
ACOUSTICS

PRODUCT INFORMATION AND INSTALLATION GUIDE

Product Specifications & Features

1. Cabinet/Table Top Mount IR Receiver with Talk Back LED terminated to a 6.5 foot/2.0M length of 4/C cable and a Quad 3.5mm mini plug. May be connected in parallel sequentially. [Cable Designation: Orange - 12VDC, Blue - Ground, Purple - Status and Yellow - IR. Refer to cable diagram below]

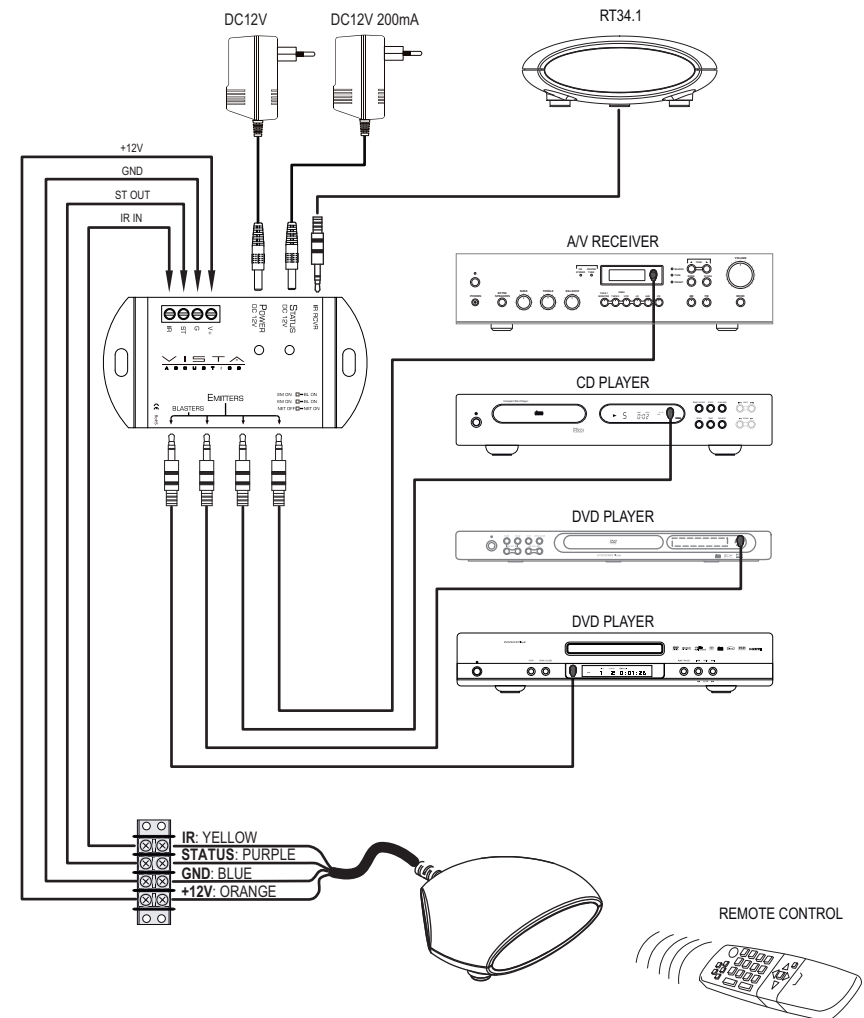

2. Infrared Frequency Bandwidth: 38KHz (± 2 KHz); operates with most remotes.
3. Reception Distance On-Axis: Up to 50 feet indoor, 15 to 20 feet in direct sunlight. Range depends on device being controlled and levels of IR and EMI interference.
4. Reception Off-Axis: Up to a distance of 20 feet at ± 45 degrees.
5. Visible Blinking-Talk Back LED: Red LED indicator confirms receipt of IR codes.
6. Power requirement: 12VDC/500mA or higher Power Adaptor

Product Installation

1. Please refer to system diagram below.
2. It is not recommended to connect without a connecting block or directly to a power adaptor. Be sure the green LED illuminates on the C21, C41 or C61 when plugging in the power adaptor.
3. The RT34.1 is PDP/LCD Friendly and CFL Proof; this IR Receiver can be installed within inches of either a PDP/LCD or in Direct Sunlight and operate effectively!
