

PRODUCT INFORMATION AND INSTALLATION GUIDE

## **Product Information & Installation Guide**

- 1. Installs over the EP11/11B, EP12/12B IR emitters and the components IR sensor window.
- 2. This shield prevents the IR signals from interfering with other components.
- 3. Includes Pressure Sensitive Adhesive (PSA) tape for easy attachment on any hard, clean and dry surface. Two (2) pieces of the PSA tape are provided.
- 4. First attach the PSA tape to the shield, next affix the shield over the emitter. In both cases be sure to remove the paper cover to expose the adhesive.
- 5. Overall dimensions (W x L x H): 22 x 25 x 8 (mm); 7/8 x 1 x 1/3 (inches)
